

OFFICIAL LOGO PLACEHOLDER

Education Data Methodology Note

A sample framework for transparent public education statistics.

DEMONSTRATION DOCUMENT - NOT AN APPROVED IMSUBEB OR CURRICULUM PUBLICATION

Replace all placeholder content with verified, approved information before production use.

All values on the website dashboard are demonstration data. This note illustrates the disclosures required for a production public data portal.

Minimum Indicator Metadata

Element	Required Description
Indicator name	Clear public label
Definition	What is counted and excluded
Unit	Number, percentage, ratio or currency
Geography	State, LGA, school or facility
Time period	Academic year and reference date
Source	Approved administrative or survey source
Method	Calculation, validation and revision process
Owner	Responsible department and contact
Limitations	Known gaps, uncertainty and comparability issues

Data Quality Workflow

A production workflow should document collection, validation, duplicate checks, exception review, approval, publication, correction and archive history.

Privacy and Safeguarding

Publish aggregated information where appropriate. Do not expose personal data, child-level records, sensitive disability information or security-sensitive school details without an approved lawful basis and safeguards.

Prototype AI Insights

Rule-based observations must be presented as prompts for expert review. They are not findings until validated by the responsible Planning, Research and Statistics function.

Revision Record

Version	Date	Change	Approved by
0.1	[Date]	Demonstration methodology structure	[Authorised officer]
